Forecast for Friday 17 Jun 2022

Weather: Widely fine and dry for much of the day with warm spells of strong sunshine. High cloud may turn sunshine hazy or milky at times. Cloud arriving from the northwest from mid-afternoon, becoming generally overcast with outbreaks of light rain expected to arrive this evening, turning patchy overnight.

Chance of cloud-free hill tops above 800m: 100%, lowering to 20% by the evening.

Low Cloud and visibility: Cloud bases for much of the day are expected to remain well above the summits. Lower cloud between 400-600m arriving from the northwest by the evening, extensive on northwest facing slopes and patchier across Southern Snowdonia. Visibility will be good, remaining so below cloud bases later. Deteriorating in rain and falling poor in more drizzly bursts.

Valley	18/14	19/14	19/17	18/17	17/16	14/14	13/13
Freezing Level*	3400m	2900m	3100m	3200m	3500m	3700m	3200m

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

A fresh to strong breeze over the summits will make it feel chilly in exposure. UV levels will be high and it is worth taking precautions against sunburn.

Forecast for Saturday 18 Jun 2022

Weather: The area of rain will clear southwards through the early hours of Saturday morning, giving a temporary improvement to fine and dry but cool conditions with some bright or sunny spells. Rain is expected to return from the south during the afternoon, turning heavy and persistent with a chance of thunderstorms.

Maximum wind: Northerly winds 10-15 mph. Gusting 25mph later at height.

Chance of cloud-free hill tops above 800m: 20% soon improving to above 95%. Lowering to 40% upon arrival of rain.

Low Cloud and visibility: Extensive cloud with bases 400-600m will quickly lift to above the summits. Cloud bases lowering from the south again through the afternoon, to around 600m. Visibility will be good largely good, falling poor in heavier bursts of rain later.

Temperature: **Valleys:** 12 Celsius rising to 15 Celsius for a time in the afternoon.
At 800m: 7 Celsius falling to 4 Celsius late afternoon.
Freezing level: Above the summits.
